

TECHNICAL SKILLS

Programming	C, Python, SQL, Java
Other	Tableau, HTML, CSS, Bootstrap, WordPress, Git, Microsoft Office
Language	English (fluent), Spanish (native)

PROJECTS

Student Unmanned Aerial Systems Competition 2021

- Represented UTSA in a 4 student team to compete against 4 other universities in a drone competition and programmed a tello drone using **Python** to fly through an indoor obstacle course
- Won 1st place, earning a prize of \$400 that was donated to Robotics Automation Society at UTSA for activities

Portfolio Website

- Designed and wrote multipage personal portfolio site concept/layout from scratch using **HTML**, **CSS**, and **JavaScript**; deployed using GitHub and Netlify (ayrtonbellocv.com)

Calculator Compendium

- Worked in a team of 4 people in a class project to build a **Java FX** application that allows user easy access to 4 different types of calculators: conversion, tax, scientific, and matrix.

WORK AND EXPERIENCE

UTSA Makerspace – Website administrator

Oct 2021 — Present

- Worked with head of Makerspace Website Operations and used **WordPress** and the Elementor page builder to help expand, update, and add functionality to the UTSA Makerspace pages (engineering.utsa.edu/makerspace)

Robotics Automation Society, UTSA – President

Aug 2020 — Present

- Lead and organize a student board of 5+ members to organize 3+ technical workshops, 1+ projects, and social events every semester for 50+ organization members; workshops included Python, Fusion 360, Raspberry Pi, leadership, ROS, virtual machines, and web development
- Successfully collaborated with 4+ other UTSA organizations on projects/events and secured funding from the college for developmental activities, including conferences and workshops (\$400+)

Mathnasium/Freelance (San Antonio, TX) – Math tutor

July 2019 — Present

- Mathnasium part-time tutor for students grade 1-12, worked with up to 4 students at a time by following a designated curriculum and communicated with both students and parents to ensure designated daily/weekly homework and assignments were completed efficiently
- Freelance tutor for 10+ students ranging from middle school to college in subjects ranging from Algebra to Calculus through weekly/bi-weekly 1+ hour long sessions, ensuring higher grades and test scores for the student
